

CAPABILITY STATEMENT

SURELINC, LLC is a CMMC Level 1 certified, SBA 8(a) firm (through 2032) specializing in cloud, cybersecurity, and AI-enabled data platforms on AWS, supporting clients in achieving CMMC compliance. Founded in 2007, SURELINC serves as a federal prime contractor to the U.S. Department of Defense Education Activity, supporting a media monitoring and analytics platform used by senior communications leadership. The firm specializes in secure cloud architecture, analytics platforms, and Generative AI solutions in regulated environments. Executive leadership holds certifications including CISSP, CCSP, and multiple AWS Professional and Specialty credentials. SURELINC designs and operates scalable platforms aligned with federal security, reporting, and mission requirements, aligned with AWS public sector distribution channels.

CORE CAPABILITIES

Secure Cloud Architecture & Modernization

AWS-native platform design; Cloud migration & legacy modernization; IAM/SSO integration; High availability & disaster recovery

Data Engineering & AI Platforms

Secure data lakes & warehouses; ETL/ELT pipelines; Machine learning deployment; Generative AI integration in regulated environments

Cybersecurity & Compliance Engineering

CMMC Level 1 certified; NIST 800-171 aligned architectures; DevSecOps controls; Continuous monitoring & logging; Encryption & key management

DevSecOps & Automation

Infrastructure as Code (CDK/Terraform); CI/CD pipeline engineering; Containerized workloads; Continuous compliance automation

PAST CLIENTS AND PERFORMANCE

U.S. Department of Defense Education Activity (DoDEA) – Prime Contractor

Federal Media Monitoring & Analysis supporting DoDEA leadership; Global media monitoring and intelligence reporting; Analytics & sentiment analysis; Automated reporting & media intelligence briefings; Executive dashboards

Genesys

Recovered off-schedule Data Platforms; Architected AWS-native platform; Built CDK infrastructure; Implemented DevSecOps; Deployed SageMaker ML pipelines with SSO; Enabled containerized workflows; Supported enterprise Lakehouse build

ConocoPhillips – Subcontractor

Architected regional AWS data lakes (Alaska, Australia, Canada); Secure serverless applications; IAM role & policy design; Machine learning integration; Cybersecurity automation, approvals & documentation

Intelligent Medical Objects

Recovered at-risk Oracle-to-Aurora migration (50+ apps); Restored schedule; Removed duplicate code; Fixed cross-database object tracking; Automated 100+ Airflow DAGs; Reduced ~\$3M licensing costs

CERTIFICATION DEPTH & TECHNICAL LEADERSHIP

Extensive AWS, cybersecurity, and cloud certifications supporting federal and enterprise engagements

Certified Information Systems Security Professional (CISSP) • Certified Cloud Security Professional (CCSP) • AWS Certified Generative AI Developer – Professional (Early Adopter); Solutions Architect – Professional; DevOps Engineer – Professional; Security, Machine Learning, Advanced Networking & Database – Specialty; Associate-level certifications • Google Professional Cloud Architect
